

Seeds of Hope for Afghanistan

Help an Afghani Family Return Home

The Seeds of Hope for Afghanistan campaign is a local effort to provide relief to rural Afghans who have suffered as a result of years of hardship in the form of wars, oppressive regimes and drought. Through your donations, such items as tools and seeds will be provided in hopes that refugee families may soon be able to return to their homes and plant this season's crop.

About DOERS

DOERS stands for "Doers Offering Emergency Relief Support". In December DOERS collected nearly 1000 blankets and \$14,000. These generous donations were used to help refugees in Afghanistan endure the harsh winter. Now DOERS is stepping in to help rebuild this war-torn country. DOERS is channeling its donations through the Mennonite Central Committee. For more information see: <http://doerswi.homestead.com>
